

July 2025 Parks & Rec

We have been mowing everyday, and when we can get caught up we have been working on getting the beach opened, including putting new sand down at the beach.

We have also been keeping the ball fields dragged for little league, and a new homerun fence was installed.

Respectively,

Tracy Benoit

July 2025 Sewer Report

Replaced a Communications board that went down inside our UV unit.

Installed new fans in the sand filter building to help exhaust the heat built up from the compressors. Fans are working great and the room is noticeably cooler.

New sewer lateral connected on Third Street. We monitored the process and everything went great.

Pulled and cleaned UV and added new cleaning gel for the wipers.

Pulled and repaired a broken chain in Cell 1, replaced a diffuser that was not working how it should.

Pulled both pumps in Pump Station C to check for rags in the pumps. Pump station had called out for high water the day before. Both pumps were cleaned and returned, they are both running normal again.

Respectively,

Jeremy Scroggins

July 2025 Water Report

We repaired two meters that weren't spinning do to turbine failure, replaced one frostplate, turned on water at six homes, turned water off for repairs for three homes, and turned off water for one home. We tapped for a water line on Lake Avenue, and dug up and replaced two curbstands.

The hours have increased at the wells with several days of the wells not shutting off, we have instituted a 2 hour sprinkling restriction.

Bids were opened for the Jenni Jill loop water line installation and hope the job will be started soon.

Respectively,

Tracy Benoit

JULY MEETING

Assessor

Prepared by Gregory Klingler

July, 2025

Report Details:

In accordance to New York State Real Property Tax Laws, the Final Rolls for 2025 have been completed and were made available to the public on Tuesday, July 1st. A newspaper ad was placed in The Post Star on July 1st stating same. Notices have also been placed on the Town Clerks' and the Assessor's bulletin boards in the Town Hall. The 2025 Assessment Rolls can be viewed in either the Town Clerks' or Assessors' offices during business hours. They are also accessible on-line via a link on the Town's website to the Warren County's website where the rolls may be viewed. The 2025 Equalization Rate for the Town is at 100%.

July 9th Town Board Meeting

Planning/Zoning Report

Prepared by Patti Corlew, Zoning Administrator

July 3, 2025

Report Details:

There were 1 Septic and 5 Land Use & Development permits issued in the month of June.

The Planning Board nor the Zoning Board have a meeting this month due to lack of applications.

Town Justice Prepared by Leanna Molloy 7/7/25

JUNE Meeting

(Highway Department)

Prepared by (Pete Bederian)

July 1, 2025

Report details: The month of June we have completed mowing. The Pole Barn Project is almost complete. We have trimmed brush around signs, turns and intersections. We have done basic maintenance to our paved and dirt roads. We have started getting the Cross Roads prepared to be repaved in August. We Responded to 4 emergency calls for trees and washouts.

Respectfully Submitted

Pete Bederian

Highway Superintendent
