May 14th Town Board Meeting

Planning/Zoning Report

Prepared by Patti Corlew, Zoning Administrator

May 8, 2025

Report Details:

There were 4 Septic and 6 Land Use & Development permits issued in the month of April.

The Planning Board met on the Tuesday, the 6th and started their review of the Site Plan Review application of the EMS for properties located at 1 Mill Ave. & 101 River St. properties. They have adjourned the matter to their next meeting in June for the EMS to submit additional plans/information.

Zoning Board does not have a meeting this month due to lack of applications.

May 2025 Water Report

Water was shut off for several customers to do repairs on plumbing and water was turned back on. Several frost plates were repaired. We had some meters that read zero usage during our last meter reading and they are being investigated.

Hydrants were flushed for the spring. The hydrologists were here to investigate a new well, the engineers are working on the plans for a new well house, and we are waiting on our approval from DOH, for the new water line on Jenni-Jill Loop.

Respectively,

Tracy Benoit

May 2025 Sewer Report

Tested the lagoon dissolved oxygen this month using our in-field DO meter. Everything tested within range, we decreased our air output slightly to better suit our needs.

Pump number 2 at pump station A was re-shimmed due to increasing run time on that pump. The pumps are now running even again.

The first of our two Mercury tests for the year were completed and we are well within our limits that DEC has implemented.

Fixed a broken chain in cell one, one of the band clamps holding the chain to the tubing had broken.

Kenyon Pipeline came and pumped the grease and grit from pump station B, they were able to get it done in one trip, and we will now be good for another year.

Our UV system is in for the summer, we needed to change a couple of wiper seals. With the new controller we are able to get a better idea on how the system is operating.

Oil changes were completed on the rotating assemblies in pump station A and B.

Respectively,

-Jeremy Scroggins

May 2025 Parks & Rec Report

We have been busy with spring cleanup, all of the parks have been blown off and we helped blow off the cemetery. Grass started to grow so we have been mowing, we have gone over to help weed whack the cemetery and get it prepped for Memorial day while trying to keep up with our chores.

Water has been turned on for the season at most of the parks.

Respectively,

Tracy Benoit

MAY MEETING

Assessor

Prepared by Gregory Klingler

May, 2025

Report Details:

- The 2025 Tentative Rolls have been completed and have been delivered to the Town Clerk. They can be viewed in-person at either the Town Clerks' or Assessors' offices in the Warrensburg Town Hall during business hours. A link to the Tentative Rolls may be found on-line on both the Town and County's websites.
- Pursuant to Section 526 of the Real Property Tax Law, your Assessor will be in attendance with the tentative roll on May 7th from 11:00 a.m. to 3:00 p.m., May 8th from 11:00 a.m. to 3:00 p.m., on May 14th from 4:00pm. to 8:00 p.m. and May 17th from 11am - 3:00 p.m. Said hours of availability have been posted on the Town Hall bulletin board outside the Town Clerk's office, and published in the Post Star newspaper on May 1st as mandated by the State of New York (i.e. public notice to be advertised in the local newspaper on or about May1st). This notice has also been posted on the Town website and on the Assessors bulletin board in the hallway.
- The Board of Assessment Review will meet on Tuesday May 27th between the hours of 4pm - 8pm at the Town Hall. Anyone wishing to grieve their assessment can find the appropriate paperwork on-line at the New York State website, www.tax.ny.gov

Highway Department Report

April 2025

KJ Olden, Deputy Superintendent

During the month of April, we hauled material and graded all seasonal dirt roads to make them ready for the summer traffic. We did spend some time over on the River Road for the Hudson River Special Management Area. We had a meeting with DEC on May 8, 2025 to discuss different alternatives for the area.

We have completed sweeping of all the roads out of Town and have started in the Hamlet area also. We plan on completing them in the near future when the rain stops.

This week will finish the brush and leaf pick up for the spring. The Gold Street Drainage project is finished with only some minor restoration work left to do. So far the drainage project has been successful and has taken all the recent rain water very well.

The demolition work on the 11 King Street Property has been completed. The highway crew did some work leveling off the site, removing brush and removed an old box trailer.

We are currently getting quotes on paving projects for this summer and are helping out preparing base area for the pole barn at the landfill.

Report from the Director

2024 – A YEAR OF GROWTH AND DISCOVERY

In 2024, we continued to expand programs and other “non-traditional” offerings available at The Richards Library. We added Vox Books, expanded the “Kits” shelf, added drop in tech help with Logan, and still have new take & make crafts and puzzles each week by Tammy. We started The Richards Library Seed Library, in an old card catalog, with a grant from the Soil & Water Conservation District. For our first growing season, we shared 99 “servings” of seed varieties and offered 7 free gardening workshops led by Warren County Master Gardeners. We received a large donation of Bentley Seed Packets and seeds from community members during the Community Seed Swap in October. It was great connect with so many individuals excited about gardening.

Our OATS (Older Adults Technology Services) classes continued with new topics, such as AI. Our Homeschool Meet-up group continues to grow. The Library hosted free children's crafts at the six Riverside Farmers' Markets, which was held at the Recreation Field for the first time. We made great connections! Private use of the Jeffrey M. Levine Community Room continued to increase – remember it is free to use.

August 13th was the Library's 123rd Anniversary, which was celebrated with an open house - catering, scavenger hunt, curated displays, PowerPoint, and numerous members from our community and local representatives!

We started the Warrensburg Repair Café, hosting it twice, in the spring and fall. For this new program, people can bring items to be repaired with guidance from our volunteer repair coaches. We held a Red Cross Blood Drive in July – it very successful! Our Book Club typically meets the first Thursday and is always looking for new members.

Marie has been organizing and cataloging our Archives and changing out the displays with different items collected by the founding Richards Sisters and their family members. We will continue to change displays and share historical information as we know/find it.

We created and collected responses for our Community Survey, July through December. This feedback will be used to inform our next strategic plan. Thank you to all that gave feedback!

A NYS Construction Grant was implemented to add an automatic door opener at our main entrance, infant changing stations in our two public restrooms, and directional signage to guide patrons through the building. This also includes names around the family portraits in the Adult Room.

We were so grateful for all of the financial donations received in 2024! Many were leftover change from copies/print outs and some came in memoriam for past community members. Every penny is appreciated and put to good use! We also received a new to us document magnifier, which is located with the public computers. Any page in a book, a document, et cetera can be magnified and color adjusted for easier reading.

Thank you!

Shelby Burkhardt

Library Director, The Richards Library
